Questions Rise Over Cattle Inventory Showing Gains

July 1 Figure of 4% Increase Is Considered High in View of Heat Wave, Drought in Major Cattle Area

Along with all of the other questions cattlemen study these days is the increasing doubt about the actual cattle numbers in the country and the projection early next year as to when the inventory will show a rise or a decline. There were numerous expressions of surprise when USDA estimated there had been a 4% increase in the cattle inventory on July 1. In Texas there was additional questioning of the estimate which showed a 7% increase in cattle numbers.

Observers in the trade who regularly cover the Texas range country were just about unanimous in their view that the "cattle were just not there". Auction operators with receipts trailing expectations even though the heat wave and drought have resulted in some distress selling, join the chorus of doubters.

"I can guarantee there will be fewer cattle in January 1981 than in January 1980," said Richard Pringle, from his vantage point in the Flint Hills of Kansas at Yates Center, speaking also as director of the cow-calf council of the National Cattlemen's Assn. He said there will be fewer cattle because of depleted pastures and low moralo

among cow-calf producers.

"When the drought dried up pastures from southern Texas to Montana, many producers had no choice but to send cows to market," said Pringle. "Others were just tired of feeding around with animals that lost money. Cow calf men had their first profitable year last year after the nine before it were losers."

"Faced with the worst pastures and hay crop in history and financially unhealed from those lean years," Pringle continued, "cattle men called early in the summer and by mid summer were selling heifers and young cows who normally would have kept back for expansion."

Pringle also said it's likely some cows and heifers held back for expansion will "come up blank" this fall because of the heat. "Taken altogether, it means herd reductions."

Other observers feel certain that the cattle inventory will turn out to be little changed. The prospects of less corn and pelive meat in the form of hogs and poultry augurs more favorable prices in the months ahead and projections of fat cattle in the \$70 to \$75 range are heard about everywhere.

USDA & FDA BUREAUCRATS ADMIT CHARGIN' WINDMILLS..

MOVING? Please use form inside paper and give full information. Waiting list is run on Friday for following week.

Just how long Jimmy Carter can stand the antics of his hired hands in the USDA, headed by Carol Tucker Foreman, and the FDA, now headed by Jerry E. Goyan, is a situation that causes wonderment all over the place. Goyan is a late comer to the scene and can't be blamed for such finesses as the saccharin ban and the equally murky attacks on the American diet which damned every thing from beef, pork, eggs and milk, and the latest surpluses of the late and unlamented efforts to ban the use of nitrates and nitrites to preserve meats and prevent botulism poisoning on a national scale.

Foreman and Goyan ignored a long winded explanation of why they had decided not to proceed with efforts to bar use of nitrates in meat products. Their whole thing was

Direct Feedlot Trade Stalled By Collapse Of Beef Prices

Ammills, Aug 25 (F.S.)—Trade very slow in the Vancouver area Monday. Not enough slaughter days on hoofers sold on an interest trend. Feedlots reported no interest and inquiry from good buying sources. Steers 400; mixed 600; choice 2-3 975-1075 lb 70.00-71.00. Hoofers 800; pen grid and mostly choice 2-3 900 lb 69.00. Load mixed good and choice 2 900 lb 67.00.

Traded at a complete standstill in the area Friday and over the week-end. No sales on slaughter were reported as feedlots reported virtually no buying interest from any source. Sales last week totalled 48,800 head.

Brinks Quarter Horse Dispersal Offers Top Quality, Performance

Brinks Breeding Corp., headquartered in Kerrville, Texas, will disperse their quarter horse inventory on Thursday, September 11, 1980, at the Slatersdale, Texas, ranch. The Brinks name and brand have been synonymous with the search for excellence and improvement in the development of American breeds for over twelve years. After the Quarter Horse Dispersal, Brinks will continue in ranching as one of the leaders of the

Brinks First Te, by Te N' Te, one of the 143 horses selling in Brink's Quarter Horse dispersal.

Brangus Breed. Brinks is owned by L. D. "Brink" Brinkman of Mountain Home, Texas, and managed by Glenn L. Brinkman, of Kerrville, Texas. Brinks goal in the Quarter Horse business is to raise the best possible horse with cow sense, style and conformation.

Throughout the years, Brinks has owned some of the great stallions in Quarter Horses. Famous stallions owned and used in developing Brinks Quarter Horses were Jose Uno, Mr. Spanish Lee, Steel Target, Doc's Hickory, Te N' Te, Skips Star, The Investor, and Syntariat(TB).

Jose Uno, the 1969 NCHA World Champion Cutting Horse and Show ROM, was the first top sire owned by Brinks. In his show career, he earned 141 cutting points. He is a Silver and Bronze award winner and is in the NCHA Hall of Fame. Eight daughters and one son sell on September 11th.

Shelton Ranches Quarter Horse Sale, Sept. 12-13

Kerrville, Texas—Shelton Ranches First Annual Quarter Horse Sale will be held Friday, September 12 and Saturday, September 13, 1980. Horses will be available for viewing at 7:00 a.m. both days. A horse demonstration is set for 10:00 a.m., September 12, followed by lunch at 11:00 a.m. and the sale at 1:00 p.m. A horse demonstration is set for 9:00 a.m., September 13, with a brunch set for 9:30 a.m. and the sale at 11:00 a.m.

The sale will be held at the Shelton Ranches, Comanche Trace Ranch on Hwy. 173, 3.5 miles from Kerrville, Texas.

The sale will feature the get of such outstanding Quarter Horse sires as Investor, Skips Star, Te N' Te, Wallaby, Mr. San Poppy, Leonard Milligan, Doc O Lena, Me Leo Bars, Doc's Lynx, Mr. Cadillac Jack, Dry Doc, Sir Quincy Dan, Sonny Go Lucky, Tardy Too, Okie Leo, and Blondy's Dude. For information contact Shelton Ranches, Kerrville, Texas, 512/886-8282, Barney Hinds, Trainer, Dr. Gerry Morrow, D.V.M.

Perhaps his top daughter of all time, Uno Princess, leads his get as Lot 2. She won the 1988 NCHA Futurity, was silver and bronze award winner, was third in the NCHA Top Ten in 1975, and was AQHA High Point Cutting Mare in the nation in 1977.

Mr. Spanish Lee, AAA, was the second top sire in the Brinks Breeding Barn. He was an AQHA Champion, a stakes winner and Arena ROM earning 46 halter and 19 working points. Mr. Spanish Lee left an indelible mark on the breed not only as a halter and performance sire, but also as a broodmare sire, with his daughters passing on conformation, correctness and symmetrical beauty. Five of his daughters sell in the Dispersal.

Thye Immortal Doc Bar, the sire of 20 AQHA Champions and the leading sire of NCHA Futurity Winners, left his mark at Brinks through two sons—Steel Target and Doc's Hickory. Steel Target is a former Pacific Coast Champion Halter Horse, and sire of nine lots selling.

Doc's Hickory, Lot 1 in the dispersal, earned 45 AQHA points in a brief show career. He was a 1976 NCHA Futurity semifinalist and was the 1978 AQHA High Point Cutting Stallion of the nation. Doc's Hickory became Brinks leading sire of the eighties because of his ability to sire "the right kind," excelling in both conformation and working ability. This seven year old breeding stallion headlines the sale, and sells with 48 sons and daughters. His get are correct, and possess the same keen mind and tremendous athletic ability of their sire. Doc's Hickory may well go down in American Quarter Horse history as one of Doc Bar's greatest breeding sons.

Brinks supplemented their breeding program by owning breeding shares of top syndicated stallions—the late Te N' Te, Skips Star, The Investor and Syntariat. Te N' Te, the first halter stallion to be syndicated for one million dollars, sired ten lots selling, which will be the largest offering of his get for some time to come. Brinks Misty Te, a yearling filly, already has seven firsts to her credit while shown by (CONT. ON PAGE 24)

Grand champion of the Chianina National Junior Heifer Show Aug. 10, at Sedalia, Mo., was owned by Bryant Greenwell, Decatur, Ala. The March 28, 1979 American purebred heifer earned her owner an American Chianina Association \$1,000 cash award.

Chianina National Jr. Heifer Show Draws 80 Entries Aug. 10

Sedalia, Mo. — A superb group of 80 Chianina heifers competed for more than \$5,000 in premiums and awards in the Chianina National Junior Heifer Show here Aug. 10. They were shown by 18 junior members of the American Chianina Association from 12 states.

John Cobia, Silsela, Mont., judge, placed two divisions of heifers. In the purebred Chianina class the grand champion was a March 28, 1979 American purebred owned by Bryant Greenwell of Decatur, Ala. who received \$1,000 cash. A Jan. 5, 1979 American purebred sired by Michelangelo and owned by Tim Yingst, Larwill, Ind., was named reserve champion.

Nikki Overpeck, Clinton, Ind., showed the purebred calf champion; Brady Gilmore, Bellefonte, Pa., the reserve calf champion; Julie Yingst had the junior champion; and Noelle Fleener, Augusta, Ill., the reserve junior champion.

Stacey Cropper of Grinnell, Iowa, showed a three-eighths Chianina x Angus to the percentage grand champion. Jeff Pilkington of Ankeny, Iowa, showed an Aug. 28, 1979 daughter of WCR Friggo 06 to the reserve grand

championship. The percentage reserve calf champion and reserve junior champion was Nikki Overpeck's heifer, Mike Bendfield of Astoria, Neb., had the senior champion; and Darryl Klehm of Tonica, Ill., the reserve senior champion.

Iowa Chianina junior members won the competitive new class for groups of three Chianina Heifers. Sponsors of the show were the American Chianina Assn. and Aldo Fairs division of the Missouri Department of Agriculture.

National Beefmaster Association recently with committeemen in Dallas with attendants from New Mexico, Oklahoma, Arkansas, Tennessee, and Texas.

According to NHA president, Dr. N. Machen, one of the first order business was to pass an extended advertising budget. "The board agreed that the Association had grown to a point we needed and could afford new exposure for the NHA," Machen stated.

"We are currently gathering to cards from various publications; we have already placed some advertising," he said.

"Another important order of business was to set the date for the 1981 Convention and Sale. The event will be held in Greenville, Texas the second weekend in June, 1981. The board also agreed to name a Sales Committee to help breeders select their cattle. "I hope to improve the offering without year's sale," Machen states.

The second Saturday in July, 1981, was chosen as the sale date for the "National Futurity Sale" and the sale of the Futurity will be Waxahachie, Texas. According to Machen the sale will be limited to the top 50 head, "of careful selected animals, a truly great offering of seedstock."

In other business the board voted to require the birth, month and year and calves and also to require the certificate number of both sire and dam on the application for registration.

Officers for National Beefmaster Association are: Dr. R. N. Machen, Dallas, Tx., President; J. Lantis McCarter, Michie, Tenn., Vice-President; Jerry Hardin, Mesquite, Tx., Treasurer; Barbara Wallis, Leonard, Tx., Secretary.

In 1917, Alice Evans, a U.S. Department of Agriculture bacteriologist, reported that cow's milk was a source of a disease called undulant fever (human brucellosis). She soon noted the close similarity of the organism found in cow's milk with the one identified by David Bruce, in 1897, as the source of undulant fever on the Island of Malta.

Panhandle Direct

Amarillo, Aug 22 (F-S) — Slaughter steers 50-1.00 lower, heifers fully 50 lower. Most of the week saw fairly active trading after beginning slow over the weekend. Tuesday's activity only moderate following the 2.00-4.00 lower carcass beef market. Most area feeders continue to be relatively current and packers keeping fairly good inventories on hand. Fairly liberal amounts of cattle were also shipped into the steers.

1/2-blood Simmental X Hereford cow with 3/4-blood Simmental calf.

Simmental crossbred cows produce more pounds of calf!

Hybrid vigor in the crossbred cow accounts for 50% of the boost in production that comes from crossbreeding. But when your cows are crossbred Simmentals, you can expect even heavier weaning weights!

Simmentals wean more pounds two ways:

1. More growth in the calf.

Simmental cows offer more than crossbred vigor. Simmentals have the genetic capability for faster growth and heavier weaning weights. Crossbred Simmental cows pass these valuable growth characteristics on to their calves.

2. More milk in the cow.

A calf can't fulfill its greater growth potential unless it gets enough milk. Crossbred Simmental cows have outstanding udders and plenty of milk for the heaviest possible weaning weights.

Use percentage or purebred Simmental bulls to sire your replacement heifers!

Brown Ranch Quarter Horse, Simmental And Simbrah Sale Oct. 15

(CONT. FROM PAGE 12)
The Brown Ranch's commercial customers have had calves weighing 50 to 100 pounds more after purchasing bulls from Brown Ranch. Actual customer weaning weights have been 380, 604, 600 and 687 pounds. Hybrid replacement heifers with a 60 percent increase in milk production along with increased fertility has resulted in higher percentage calf crops due to the higher fertility and vigor of the bulls. Calves produced from Brown bulls have found top market acceptance, including turn-of-premiums due to the increased weight of the calves and their future growth potential as feeders.

Angus Heifer, Skirt Auction Raises \$3,800 For Angus Auxiliary

Auction of a registered Angus heifer and an original appliqued Angus skirt raised \$3,800 to fortify the American Angus Auxiliary's college scholarship fund recently at the 33rd American Angus Breeders' Futurity in Louisville, Kentucky, reports Mrs. Ray Adams, Tahoka, Texas, president of the national women's group.

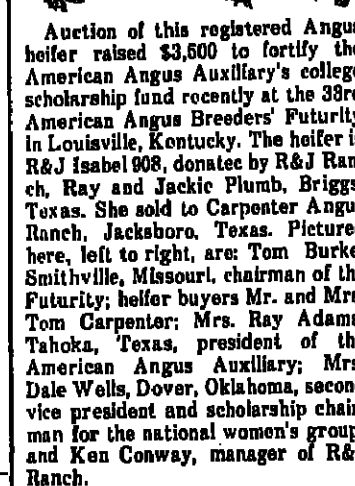

The heifer was R&J Isabel 908, donated by R&J Ranch, Ray and Jackie Plumb, Briggs, Texas. Carpenter Angus Ranch, Jackboro, Texas, bought the heifer for \$3,500, all of which will go into the Auxiliary's scholarship fund. This year, the women's group awarded scholarships totaling \$4,000 to six high school graduating seniors who are active in Angus activities and school, community and church events.

Mrs. Bob Weaver, Peoria, Illinois, purchased the appliqued skirt for \$500. This money will help replenish the Auxiliary's general fund, and also will be used toward the national Angus queen expense fund.

Marilyn Barr New Ass't P.R. Director At Angus Assn.

Marilyn Barr, a Liberty, Neb., native who has served for the past year as public relations specialist for the American Angus Association, has been promoted to assistant director of communications and public relations, reports C.K. Allen, executive vice-president of the world's largest beef cattle registry association. Barr will work with Keith Evans, director of communications and public relations, to help plan and execute the Association's nationwide communications, public relations and advertising programs.

AVOID CHANGING WELL LEATHERS FOR MANY YEARS

Perma-cups are molded urethane, more wear resistant than nylon. Perma-cups will outlast leathers 10 to 1. Their tapered design allows only 1/8" wearing, instead of 5/8" of a leather. Much less friction for easier pumping extends cylinder life greatly. Perma-cups must be used in a good or new cylinder, as they do not swell. Install Urethane Perma-cups, Urethane Check-balls, and Urethane Pump Rod-guides, and don't pull that well for many years. Thousands are in wells that have not been released in 9 years! All are available in standard cylinder and pipe sizes. Write or call for our catalog. We ship same day order is received. This is our 30th year saving ranchers.

NEED A 40% RETURN!

If you are now receiving a 6%-14% return on your investment (C.D.'s, bonds, dividends, etc.) After taxes and inflation, you are losing over 5% per year on your dollars.
In today's economy you need a good hedge investment that has been doing in excess of 25% a year. We are the oldest investment company of our kind in America—recommended by leading financial periodicals—and have been providing an investment that has been averaging better than 40% per year for the last six years. It has not gone down in value for 45 consecutive years.

Move round bales as gently as hydraulics without leaving your pickup seat!

Priefert Bale Buggy
No winches
No hydraulics
No electrical connections

Don't Damage Your Roof!
When you get moisture under the roof of the bale, it can't dry out and this spoils the hay. The Priefert Bale Buggy never touches the roof, never drops or rolls the bale. With no bale damage, there's seldom bale spoilage.
The Priefert Bale Buggy hooks to your pickup or tractor with only a simple pin hitch and trip rope. Because brakes

are not required, the Bale Buggy works well in bad ground conditions. The simplicity of the Priefert bale mover will amaze you and assure you of a long, productive life for this unit.

ARMSTRONG TIRES

SW Pinzgauer Jr. Jackpot Club Calf Sale Set Oct. 17

Shreveport — The Southwest Pinzgauer Breeders Junior Jackpot Club Calf Sale will be held Friday, Oct. 17, at 8 p.m. at the Louisiana State Fairgrounds. The heifers in the sale will be eligible to compete for a total of \$5,000 in premium money in the Jackpot Junior Show and another \$3,000 in the Open Pinzgauer Show at the Mid-Winter Livestock Expo at Shreveport in February, 1981. Trophies will go to grand and reserve champions in the shows, and ribbons to place winners.

In the Oct. 17 sale, 50 Pinzgauer heifers will sell.

Grand champion of the Jackpot Junior Show will receive \$700 and reserve champion \$400. Cash awards for 12 places in each class will range from \$25 for 12th place up to \$300 for first place, in two classes: calves born in January and February, 1980, and calves born in March and April, 1980.

Animals must be registered in the name of the exhibitor with the American Pinzgauer Association. The Junior Jackpot Show is open to any person 21 years of age and under. The open show is for both juniors and adults.

For further information contact: Gary J. Arnold, show and sale chairman, Route 1, Box 126, Jefferson, Texas 75657, phone 214/665-2256.

Pinzgauer Exhibit Set for Pan-American Expo

Sherman — Skyview Pinzgauer Farms near here, owned by Dr. Melton and Susan Graham of Arlington, and managed by Dick and Janie Kellott of Sherman, and O. A. Hamm of Irving will have a Pinzgauer cattle exhibit at the Pan American Livestock Exposition at the Texas State Fair in

Pinzgauer Steer Feed Test Set to Begin Oct. 1 at Lubbock

Lubbock — Plans are progressing by the Southwest Pinzgauer Association and Dr. Bob Long of Texas Technical Univ. at Lubbock for a Pinzgauer steer demonstration to be held at Lubbock Feedyards beginning Oct. 1.

The steers will undergo a 140-day official feed test on a strictly commercial feeding basis after which the average daily gain, feed conversion, and weight per day of age will be calculated; then the steers will be slaughtered, graded on a carcass basis and evaluated, and the sides sold as commercial meat.

Dick Kellott, manager of Skyview Pinzgauer Farms at Sherman, said, "We are expecting to have 50 or more steers go through the test on a strictly commercial basis."

The steers should be weighing around 600 pounds when they go on the test, and delivery date is Oct. 1.

Dr. Bob Long of Texas Tech will be the test supervisor.

To consign Pinzgauer steers of any percentage to the test, or for more information, contact Dick Kellott, Rt. 4, Box 198D, Sherman, Texas 76880, phone 214/692-3498; or Susan Graham, 1115 W. Randol Mill Road, No. 102, Arlington, Texas 76012, phone 817/281-8830.

"This test should provide some interesting information on Pinzgauers and how they compare with other steers in the areas of rate of gain, feed conversion and cost of gain, grade and yield, and the bottom line — their profitability," Kellott said.

Dallas, Oct. 3-12.

The exhibit will consist of a purebred bull, a purebred cow, and three percentage yearling heifers including one yearling heifer which was a class champion at the 1979 Mid-Winter Expo at Shreveport.

U.S. farmers are expected to plant nearly 79.5 million acres of wheat this year, according to Sperry New Holland.

Pinzgauers Work Well For Duncans In The Showing and Pasture

Fort Worth — Mrs. Georgia Duncan is a Pinzgauer breeder on the place she and husband, Herman H. Duncan, run near Greenville. But he's an Angus man on places near Haslet and Godley.

Being partial to the different breeds, apparently doesn't pose any problems for the otherwise retired couple. They have some Angus-Pinzgauer crosses in their herd of about 35 Pinzgauer mother cows at Greenville.

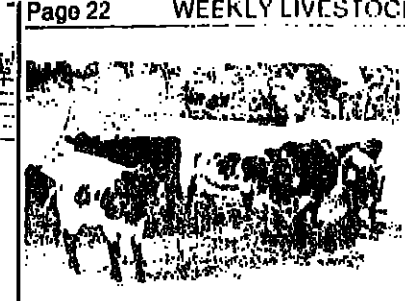

Duncan concedes that the Pinzgauers will do just about everything Angus do, and might excel in some respects.

"All we ever have to feed the Pinzgauers in some mineral and molasses blocks — they rustle for themselves for the rest of their feed," he said.

The Duncans' Pinzgauers have proven successful, both as show cattle and working cattle.

They produced Pinzgauers which have done well at county fairs in Hunt and Rains counties. They have ribbons for reserve champion bull; a first place ribbon in the open beef show; a fifth place junior beef breeds ribbon; two first place open beef show ribbons and a second place junior beef breeders ribbon, all from the Hunt County fair. They have also garnered a second place in the dairy division, and a first place in the beef division at the Rains County Fair, the latter with a five-month-old bull calf that wasn't yet weaned and had only three days rope training before being shown. That was the calf judged reserve champion of all beef breeds.

American Pinzgauer Move to Ames is Progressing Smoothly

Murkison, Texas — Dr. Dan Scott, owner of Dan Scott Pinzgauer Assn., here, and president of American Pinzgauer Assn., said the transition of APGA offices from Norman, Okla. to Ames, Iowa, is going smoothly.

"Even the switch over from the old computer system we formerly used to the unlimited Boeing Computer is progressing in an orderly manner," Dr. Scott said.

He said that several volunteers helped keep up with registrations and transfers, and pedigree work "by hand" when the Norman office was closed, and that registration and transfer work is being kept current.

Change over to the Boeing computer is expected to be "on line" Oct. 1.

Pinzgauers Work Well For Duncans In The Showing and Pasture

(CONT. FROM PAGE 21)

foot problems; being a dual-purpose breed the cows give plenty of milk to raise bloomy calves; are gentle, not fence breakers; and are highly fertile.

The Duncans' favorites are "Texas Pinzgauers," cattle bred up from East Texas native cattle of various or combinations of breeds, through use of fullblood Pinzgauers such as Alpine, Wotan and other popular Pinzgauer sires. Much of the basic breeding in the herd was Angus and some Red Poll, so that Duncan is being able to get rid of the horns by using Alpine.

Another reason Duncan believes the Pinzgauers are a success in Northeast Texas is the ready acceptance of the bulls. The Hunt Brothers ranch near Terrell has become a good customer for bulls to use on Charolais heifers.

"They've bought Pinzgauer bull calves before they were weaned for \$700 apiece. When an unweaned bull calf will more than pay for its mother, I believe you've got cattle that will work," Duncan said.

... Profitable because they're practical

☆ **GROWTHABILITY**
☆ **MOTHERING ABILITY**
☆ **CARCASS QUALITY**

If you're in the Beef Business, you should consider Pinzgauer. Pinzgauers perform on the Range and in the Feedlot. The Pinzgauer female is noted for her milking ability, high fertility and Longevity.

Although still few in numbers in the United States, compared to other breeds, Pinzgauers have made their mark in feedlot tests, and shows, both on the hoof and in carcass contests. These are a few reasons why you should take a look at the PRACTICAL PINZGAUER BREED

Shorthorn Princesses Promote Breed, Duties Outlined

A Texas Shorthorn Lassie Princess must be a young lady 14 to 20 years of age who is interested in Shorthorn/Polled Shorthorns, shows Shorthorn Heifers or steers, or is a member of a family who raises Shorthorns. The representative of the Texas Shorthorn breeders must be single and remain single during the time she holds a Lassie title. She and her mother must be members or join the Texas Shorthorn Lassies, ladies auxiliary. The Lassies will sponsor four Princesses each year.

A Princess will be provided a costume to wear when representing the Lassie title. She and her mother must be members or join the Texas Shorthorn Lassies, ladies auxiliary. The Lassies will sponsor four Princesses each year.

The main job of a Princess is promoting the Shorthorn cattle breed in your area, or part of the state. She will be asked to wear the costume while presenting awards at shows and sales, attending banquets and breed association meetings, passing out literature from the breed booth, or when making public appearances. The princess will work with the state queen at major open Shorthorn shows and state sales. During the year, the princess will keep a scrapbook of her activities, and at the end of the year she will be able to compete with the other princesses for the queen title.
